

SHEPTON BEAUCHAMP NEIGHBOURHOOD SUPPORT SCHEME

The village is organising a support scheme to see us through this difficult time. The aim of the scheme is to find out who possibly needs help now or maybe will need help in the future. It is also to compile a list of people who can provide assistance.

The plan is to compile a list of names and addresses for both categories so that in the event that help is requested a local volunteer can be contacted via a network of co-ordinators and that help can be provided.

Please bear in mind when completing the form that self-isolation could last up to 3 months, or should the national situation change, even longer. Therefore, whilst you may not require assistance now, the national guidelines may change.
